A family owned business since 1963, Lalonde Machinery Movers specializes in moving machinery, rigging, hoisting & millwrighting. If it is a single piece of equipment or an entire manufacturing facility, you can count on Lalonde Machinery Movers to offer competitive rates, and deliver services that far exceed customer expectations.

Basement Installs Always a Challenge!

This 5,000 lb Irradiation Machine needed to be placed in the basement of a Hospital. This install required the removal of two concrete floor slabs and then use of our portable gantry system and chain fall to lower 14 ft to the basement floor.

Installation of a 5 colour Printing Press in the Basement of a Historic Downtown Building offered some unique challenges. Before we could even begin the install, we had to lower a portable gantry system and lift truck into the basement.
